

FPX Series Fiber Panels

CommScope's FPX series provides industry-leading fiber cable protection and management in a modular footprint.

CommScope's FPX series provides industry-leading fiber cable protection and management in a modular footprint. With a depth of 12.0" and with front only as well as front and rear access, the FPX panel is suitable for a wide range of applications including central offices, data centers, indoor and outdoor cabinets, huts, CEV's and more.

The FPX panel utilizes an internal splicing system that creates a compact, feature-rich, high-density solution. FPX achieves densities of 48-fiber terminations/splices in 1 RU (1.75") and 288-terminations/splices in 5 RU (8.75") using LC connectors (24 and 144 respectively using SC). These densities are attained while utilizing CommScope's angled adapters to ease cable access, protect bend radius and provide individual fiber access. Field-installable vertical cable guides on either side of the panel allow for managed routing and protection of the fiber entering and exiting the panel. The FPX's wide range of features and options are designed for your networks' growing needs. Panels are equipped with adjustable mounting brackets to provide either 19- or 23-inch rack mounting with 2, 5, and 8 inch recess mounting. The panel is available preterminated with pigtails, IFC cable, or adapters only to simplify ordering and reduce installation time.

Features

- 12.0" total depth with front only access allows the panel to fit in a wide range of applications including central office, datacenter, outside plant cabinets, and more
- Front and rear access makes field termination and splicing fast and efficient, regardless of the application or network location
- Combines the unique features of vertical cable guides and angle-left/angle-right adapters, offering bend radius protection, intuitive routing and easy connector access
- Adapter packs can be pre-configured at the factory for more efficient service turn-up, or delivered separately for shorter lead times and to defer expenses for when network growth is needed
- MPO Cassettes eliminate the need for on-site fiber terminations or splicing, which decreases overall deployment time
- Equipped with adjustable mounting brackets to provide either 19- or 23-inch rack or cabinet mounting (EIA or WECCO) as well as 2, 5, or 8 inch recess mounting
- Available in a variety of sizes and configurations and utilizes a single footprint

Product Overview

Recommended Applications	Medium to high-density termination and/or splice panel solution. Suitable for Central Office/Head End/Data center rack mounts, back-to-back mounting, and use in constrained spaces such as outside plant cabinets, huts, controlled environmental vaults (CEVs), and other customer premise applications.
Description	FPX Rack Mount Panel. Available in 1 RU, 2 RU, 3 RU, 4 RU and 5 RU chassis height configurations. Includes adapter only, termination/splice, MPO cassette, and preterminated/stubbed options.
Number of fibers, future growth potential	12 to 288; modularity allows for a mix of connection types and to grow capacity with network demand
Interconnect	Ideal
Cross-connect	Suitable for moderate fiber count cross-connect use; for high counts (above 288) consider the NG4access Optical Distribution Frame
Accommodates on-frame splicing	Yes. Built-in
Accommodates off-frame splicing	Yes, with the purchase of separate IFC cable. Multifiber clamp included.
Rear access	Yes
Front access	Yes
Customer premises application	Ideal
19" mounting	Yes
23" mounting	Yes
Mix equipment with fiber product?	Ideal
Use as dedicated fiber frame	Not recommended (See ODF catalog #103743AE)
VAM capabilities	No
Optimum jumper storage location	IMP or seperate storage panel required
Vertical Cable guide	Includes VCG on both sides
Compliance	Meets UL 1863 and NEBS (GR-63 and -1089) certification requirements

Density by Connector Type and Application

	Size in Rack Units				
	1	2	3	4	5
Maximum Density					
LC Connector:	48	96	144	192	288
SC Connector	24	48	72	96	144
Adaptor Pack Configuration:	2 modular adapter packs: 1 angle right/ 1 angle left	4 modular adapter packs: 2 angle right/ 2 angle left	6 modular adapter packs: 3 angle right/ 3 angle left	8 modular adapter packs: 4 angle right/ 4 angle left	12 modular adapter packs: 6 angle right/ 6 angle left
	Vertical cable guide with panel can be removed				
Features at a Glance:	Angled left/right adapters, highest density with maximum cable management features.				

Panel Configurations

FPX series chassis utilize modular adapter packs which are unique to either the right or left position of the chassis. The left / right position must be specified to ensure proper adapter orientation and color order in the backplane. Below illustrates the various configurations for the five available FPX chassis.

1 RU Chassis

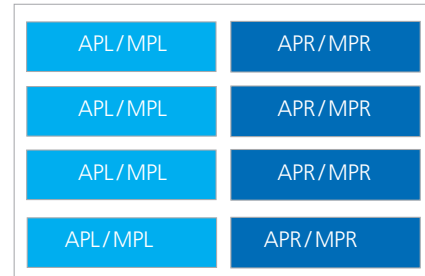

2 RU Chassis

3 RU Chassis

4 RU Chassis

5 RU Chassis

APL = angle left adapter pack
 APR = angle right adapter pack
 MPL = left MPO cassette
 MPR = right MPO cassette

FPX Series Empty Chassis

The FPX series chassis can be purchased without adapter packs. In this form, the end-user can mix and match any combinations of modular FPX adapter packs or simply utilize a “grow as you go” approach to their network.

Description	Height	Part Number
Rack or cabinet mount panel, putty white		
1 RU empty panel, putty white; accommodates 1 angle LEFT and 1 angle RIGHT adapter packs;	1.75"	FPX-1FR000-000
2 RU empty panel, putty white; accommodates 2 angle LEFT and 2 angle RIGHT adapter packs;	3.50"	FPX-2FR000-000
3 RU empty panel, putty white; accommodates 3 angle LEFT and 3 angle RIGHT adapter packs;	5.15"	FPX-3FR000-000
4 RU empty panel, putty white; accommodates 4 angle LEFT and 4 angle RIGHT adapter packs;	6.90"	FPX-4FR000-000
5 RU empty panel, putty white; accommodates 6 angle LEFT and 6 angle RIGHT adapter packs;	8.75"	FPX-5FR000-000
3RU empty panel with IFC cable management	5.15"	FPX-3FS0/0000000
4RU empty panel with IFC cable management	6.90"	FPX-4FS0/0000000
5RU empty panel with IFC cable management	8.75"	FPX-5FS0/0000000
Accessories		
Single fusion heat shrink splice tray without protection sleeves		FPX-HST-48
Blank plates		FPX-00AP00
Mass Fusion and Mechanical Splice tray without protection sleeves		FPX-RBN-TRAY-12
FPX KIT CABLE CLAMP Standard	.2" - 1.0" cable OD	FPX-ACCCLMP*
FPX KIT CABLE CLAMP Large	.8" - 1.2" cable OD	FPX-ACCCLMP-LG

* All Chassis ship with 1 standard cable clamp included.

FPX Series Standard Adapter Packs

The FPX series offers a variety of standard modular adapter packs to accommodate most applications. The modular design is user-friendly and offers maximum flexibility to the end-user. CommScope's standard adapter pack offerings are SC and LC in both multimode and singlemode options. The same adapter packs are used throughout the FPX platform and oriented in the same direction in each chassis to optimize craft friendliness.

The FPX modular adapter packs can only be used with the FPX series panels. Each adapter pack contains labels that make it able to be loaded correctly in only one side of the panel. These craft friendly labels help insure correct installation. The FPX adapter packs are not interchangeable with other CommScope fiber panels (FL2000, FMT, or FL1000).

Adapter Only Packs

Description	Part Number
Multimode adapter only packs	
SC adapters, aqua color ¹ ; 12 adapters or 12 fiber ports per adapter pack	
Angle LEFT adapter pack	FPX-AF-12APLA9
Angle RIGHT adapter pack	FPX-AF-12APRA9
LC adapters, aqua color ¹ ; 12 adapters ² or 24 fiber ports per adapter pack	
Angle LEFT adapter pack	FPX-AF-24APLA6
Angle RIGHT adapter pack	FPX-AF-24APRA6
Singlemode adapter only packs	
SC ultra polish (UPC) adapters, blue color; 12 adapters or 12 fiber ports per adapter pack	
Angle LEFT adapter pack	FPX-AF-12APL07
Angle RIGHT adapter pack	FPX-AF-12APR07
LC ultra polish (UPC) adapters, blue color; 12 adapters ² or 24 fiber ports per adapter pack	
Angle LEFT adapter pack	FPX-AF-24APL08
Angle RIGHT adapter pack	FPX-AF-24APR08
SC angle polish (APC) adapters, green color; 12 adapters or 12 fiber ports per adapter pack	
Angle LEFT adapter pack	FPX-AF-12APL0J
Angle RIGHT adapter pack	FPX-AF-12APR0J
LC angle polish (APC) adapters, green color; 12 adapters ² or 24 fiber ports per adapter pack	
Angle LEFT adapter pack	FPX-AF-24APL0Z
Angle RIGHT adapter pack	FPX-AF-24APR0Z

¹ CommScope recommends the use of aqua colored adapters with laser-optimized multimode fiber for 10 Gigabit (OM3 and OM4) applications for circuit identification.

² Each LC adapter accepts 2 fibers each

Adapter Packs with Pigtails

CommScope’s FPX modular adapter packs are available to be shipped from the factory with preterminated 3 meter pigtails. These configurations can simplify the ordering process and reduce installation time and costs for the end-user.

FPX MPO Cassettes

CommScope’s FPX series MPO cassettes utilize the same user interface as the modular adapter packs, but offer the end-user the flexibility of a plug-and-play MPO architecture. Each cassette has a front bulkhead identical to the adapter pack with an internal cable assembly converting to an MPO male connector. This assembly is housed in an enclosed cassette with a rear MPO adapter allowing the user to utilize an MPO trunk to turn up service.
